Summary

I'm a software developer with more than 5 years of experience building web and mobile solutions. Throughout my career I've been lucky to work on very diverse projects with different technologies, which has given me a broader and more complete vision of software development. I'm passionate about programming and technology, and I really enjoy working as a team, always keeping good vibes and growing alongside my colleagues.

Experience

Doko Studio **Jul 2024 – Present**

Software Engineer *Barcelona, Spain*

- Participation in multiple projects using technologies such as **Laravel, Django, React, Angular**.
- Design and development of **modular APIs** with documentation generated through **Swagger**.
- Implementation of **CI/CD pipelines** and production workflows with **GitLab CI**, enabling deployments across different client environments.
- Domain management and server administration.
- Publishing mobile apps on the Play Store and App Store.
- Experience implementing both integrated and standalone payment gateways.
- Collaboration with designers in **Figma** for the creation of responsive and usable web interfaces.

Lateua **May 2023 – Feb 2024**

Full Stack Developer *Barcelona, Spain*

- Migration of the legacy **WordPress** platform to a new scalable solution with **React** and **Django**.
- Design and implementation of **microservices** to decouple functionalities and improve performance.
- Development of cross-platform data migration scripts with **Python**.
- Creation of **AI**-based processes for color detection, shapes and image generation.
- Development of a conversational **AI** model to assist users in generating results.

Loyic **Mar 2023 – Mar 2024**

Full Stack Developer / Team Lead *Barcelona, Spain*

- Development and maintenance of internal HR management software: time tracking, payroll, reports and documentation.
- Leadership of a development team, coordinating tasks and deliveries of new features and fixes.
- Supervision of **web development** projects and internal database administration.
- Building solutions on the Dutch platform **Exact Synergy**, customising it according to business needs.
- Collaboration with consultants and stakeholders to align development with business requirements.

Social Labs **Jan 2019 – Aug 2019**

Junior Developer *Barcelona, Spain*

- Support in the development of multiple web projects for clients such as **Bimbo**, **Coca-Cola** and **Ferromex**.
- Collaboration with different teams to implement features, fixes and maintenance tasks.
- Hands-on experience working with large-scale clients and adapting to different project requirements.
- Support in front-end and back-end tasks, strengthening my overall web development skills.

Education

BSc in Computer Science **Barcelona, Spain**

Specialisation in Software Development and Project Management *2015 – 2020*

Languages

English: B2
Spanish: C2 (Native)
Catalan: C2 (Native)

Extracurricular

Planit **2020**

Founder & Full Stack Developer *Barcelona, Spain*

- Creation of a mobile and web application that, after validating the idea with real users, evolved into an early-stage startup oriented towards attracting investment.
- Development of the platform in **React**, allowing users to propose plans and connect with others.
- Full management of the product cycle: idea validation, design, development and private launch for investors.
- Definition of workflows and pitch strategies oriented towards attracting investment.
- The project reached the pre-investment stage but was paused due to the COVID-19 pandemic.
